Sheriff and District Attorney
Disagree Over Conversation
But Good Faith Is

REPORT TO BE MADE SOON

Forecast Indicates Findings Will
Prove Satisfactory to Sheriff
Ritter in All Essen-
tials

It is said that when the report of Otto M. Schlach, district attorney, relating to the release of W. H. Murphy, short change artist, without a court order, is filed with County Judge John Brindley, the affair will be shown to be largely a "temp-est in a teapot."

Mr. Ritter's claim that he released Murphy with the consent of the district attorney is corroborated by John Weber, undersheriff, who says he was in the office. Mr. Schlach's recollection is that he told Ritter he had no objection provided a fine were substituted and restitution of the stolen money made. He thinks he made it plain that the court alone had authority in the matter.

In any event, it is expected, the report will show that the release grew out of a misunderstanding between the sheriff and the district attorney.

It is intimated that a thorough investigation of the case has resulted in all phases of the situation being cleared up in a manner satisfactory to the officials and advantageous to Mr. Ritter, who made good the matter of securing restitution of the money Murphy's graft had brought its exponent.

Field Marshal Mackensen in Supreme
Command in Balkans;
Greece Keeps Out
of War

PARIS, Sept. 15.—Allied troops have scored the greatest victories against the Germans and Bulgarians since the Balkan offensive began. It was officially announced Friday.

The Serbs drove the Bulgarians back ten miles in hasty retreat on the allied left wing, capturing Gornitcheva by a brilliant bayonet charge and the major part of the crest of Malkandje. Serbian cavalry pursued the retreating Bulgarians and captured the village of Okeus.

British troops have captured Matchovevo and two heights north of the latter village. On the right bank of the Vardar the French captured Bulgarian trenches to a depth of 600 yards on a front of 1500 yards (nearly a mile).

Mackensen in Balkans
LONDON, Sept. 15.—Field Marshal Mackensen, in supreme command of the Teutonic operations in the Balkans, has arrived on the German Bulgar front to direct the defense against the new onslaughts of the allies.

A Salonika dispatch Friday reported that the German-Bulgar commanders are hastily regrouping their forces in Macedonia. Large bodies of troops are being concentrated in the Vardar valley to meet an expected Anglo-French offensive.

Fight Grows More Violent
The fighting on the whole of the allied left wing is growing more violent every day. Capture of a village held by the Bulgarians in the Vardar valley southwest of Doiran, was the most important victory won by the British on this sector of the front since the present offensive began.

Greece's intervention in the war is still being delayed by diplomatic negotiations at Athens. Dispatches from the Greek capital Friday said that King Constantine has summoned a conference of all political leaders in a new effort to find a prime minister who will guide Greece into war and at the same time unite opposing factions in Greece.

Report Bulgars Retreating
SALONIKA, Sept. 15.—Bulgarian troops are falling back upon the Greek town of Florina, hotly pursued by the Serbians who have captured the principal heights of Malkandje. The Serbians have captured twenty guns.

Berlin Admits Loss
BERLIN, Sept. 15.—Bulgarian troops have been driven out of their positions at Malkandje by the Serbians, it was officially admitted Friday afternoon.

East of the Vardar the English took advanced German trenches but were afterwards driven out.

Countess Bernstorff Back
After Two Years Absence

COUNT AND COUNTESS VON BERNSTORFF

Countess Bernstorff, wife of the German ambassador to the United States, has come back to America after an absence of more than two years. She might have been passed along even through the line of British warships but she found life more pleasant in Germany during the war.

GREAT SHELL ESCAPES
ARMOR AND SHATTERS
THE HOME OF GUNNER

WASHINGTON, Sept. 15.—How a sixteen-inch solid steel shell tore straight through a home near the government testing grounds at Indian Head, Maryland, passing through the room adjoining that in which there were a woman and her three daughters, was reported to Washington Friday. It was the first sixteen-inch shell ever fired in the United States. Sailing from the mouth of the first sixteen-inch gun ever set up in this country to be tested, the shell tore through a thick section of tough armor plate, thence through a huge bank of sand and, tilting upward as a result of this resistance, described a mile-long arc through the air.

Mrs. Mary Swann had just finished preparing the mid-day meal for her husband, William O. Swann—one of the men handling the gun. Her two smallest children had followed her into the dining room, joining her eighteen-year-old daughter. There was a terrific roar and crash. The house shook. When she recovered from her fright Mrs. Swann went into the kitchen. There were great gaping holes in opposite walls. Outside the house lay the huge mass of steel, still hot.

This was about three weeks ago. Indian Head is only fifty-four miles from Washington, but is almost as isolated as a desert town. That is the explanation given for the time elapsed between the occurrence and the receipt of the news in Washington. Few persons come and go between the gun-proving settlement and this city.

Now is Hobby Horse
Little Essie Swann, aged four, now uses the big steel cylinder as a hobby horse and her mother looks on, beaming at the thought the child is alive to do so.

The gun has been fired several times since and without accident. It is said this is not the first instance at Indian Head of a big shell penetrating the armor at which it was shot and ricocheting off the test grounds, but none ever went a dangerous distance before. The homes thereabout, like that of the Swanns, are supposed to be far enough away to be safe.

GENERAL STAFF
HAS HUNCH VILLA
PLANS LAST COUP

WASHINGTON, Sept. 15.—The private, whispered hunch of many members of the army general staff circulated through the war department Friday was that Francisco Villa is planning what he hopes to be a mixture of sweet revenge and the coup d'etat of his kaleidoscopic up and down life. Personal letters received from officers in the field by officer friends at the war department are the basis of the hunch.

Inquiry among several members of the general staff today developed the same answer to the question: "Do you believe Villa is alive?" The answer inevitably was, "I most certainly do."

The hunch is that Villa, nursing resentment over the Carranza recognition by President Wilson, plans a series of lightning-like border raids just as close to election time as compatible with strategy. Army officers generally do not fear any real Villa activity until Pancho has spent several weeks more gathering ammunition and as many of his old followers as possible, in order to make it necessary for the Carranza United States field armies to enter into operations against him on a larger scale than either would want to at such a time.

FRENCH TAKE TRENCHES

Paris Claims Troops at Edge of
Rancourt, Two Miles South-
east of Town of
Combles

LONDON, Sept. 15.—British troops resumed their great offensive Friday morning with a powerful blow against the German lines north of the Somme.

General Haig announced Friday afternoon that the British advanced 2,000 yards on the wide front from Boulaux wood, northwest of Combles, to a point north of the Albert-Bapaume road. The attack is continuing and many prisoners already have been taken.

Break Third German Line
British troops have broken the German third line, said a Reuter dispatch from press headquarters at the British front this afternoon.

It is reported that the village of Fiers, a mile and one-half northwest of Ginchy, has been captured.

The British are sweeping eastward toward the village of Morval, about two miles directly north of Combles, in a great movement that threatens to surround the Germans in Combles and effect their capture.

The greater part of Boulaux, a mile northwest of Combles, has already been captured by General Haig's men.

The British advance, according to fragmentary bulletins received here Friday night, is the greatest made by General Haig's men since the opening day of the allied offensive.

Southeast of Thiepval, the British Thursday night captured trenches on a front of 1,000 yards, including the strong Wunderwerk position.

The British used a new type of heavy armored car for the first time in this morning's great smash and with remarkable success. General Haig reported. Four German aeroplanes were shot down in flames and four others damaged. On no single day on any front since the beginning of the war have so many aeroplanes been put out of commission.

British air forces co-operated splendidly with the infantry in the attack, flying low and turning machine guns on German infantry.

British airmen attacked German headquarters at Bapaume and the enemy railway station bombarding rolling stock and damaging the train. Two hostile kite balloons were destroyed.

French Take Trenches

PARIS, Sept. 15.—French troops Thursday night captured a series of German trenches south of Rancourt by a spirited attack, advancing their lines to the edge of the village, two miles east by southeast of Combles, it was officially announced Friday afternoon.

The Germans attacked in force east of Clercy, but were checked with heavy losses.

South of the Somme, northeast of Berry-En-Santerre, a German grenade attack was checked.

Between the Oise and the Aisne, the French cleaned up a German trench inflicting losses and taking prisoners. At Verdun the Germans twice unsuccessfully tried to reach the French lines east of the Meuse.

NEW CARS WILL BE
IN SERVICE SUNDAY

Seven pretty green and yellow street cars, soon to be rolling in La Crosse streets, left Savanna, Ill., on the last leg of their journey here from St. Louis Friday morning. They are to be unloaded Saturday, and will probably get their trials spins on Sunday, it was said at the local offices.

M. S. Ferguson, Evanston, Ill., master mechanic of the street car lines there, is in the city to superintend the installation of the new equipment.

BUREAU'S EFFORT

Enthusiastic Meeting Has Many
City Problems Pre-

Action

TO HELP HEALTH DEPT.

Also Will Work with Schools;
Kinsloe Reads Great List
of Suggested Ac-
tivities

A committee on public health, to number three or five persons, was authorized by the Civic bureau of the Chamber of Commerce at an enthusiastic business meeting held in the offices of the chamber Thursday evening. About 75 members attended, and took part in the lively discussions which occupied the evening.

Suggestion of Dr. Evans
The public health committee, which is to be appointed by W. F. Goodrich, chairman of the bureau, was the suggestion of Dr. Ed Evans, in a discussion of the garbage disposal methods now in vogue. Dr. Evans recommended that garbage be collected all year round, or at least for a term a few months longer than at present, when it is collected by the city only during the summer. The physician suggested that a committee to co-operate with the health department in securing this and other reforms would be of value, and his proposal was adopted.

The bureau also endorsed a proposal presented by Rev. C. C. Rowleson, and seconded by L. F. Easton, that it co-operate with the board of education.

Many Suggestions
The meeting was featured by the presentation of a list of suggestions compiled by Executive Secretary James R. Kinsloe. The suggestions were taken from those sent in during the membership campaign. Mr. Kinsloe said, the executive committee will take up the proposals, and make recommendations to the bureau. The suggestions submitted by Mr. Kinsloe were as follows:

"I should like to see the chamber give special encouragement to the Art association. I also believe that we have demonstrated a need in La Crosse for social center work, which it seems to me the Chamber of Commerce would do well to adopt as a line of work that it will foster.

"Plant trees on playgrounds so that children can use the grounds in hot weather. Make arrangement for better care of skating rinks.

"Better sprinkled streets on street car lines. Have street car system sprinkle their tracks with a tank sprinkling car and do it SUNDAYS, HOLIDAYS and FAIR WEEK.

"The Civic bureau should consider electric light and telephone service, taxes, street improvements and many unenumerated activities.

"Investigate home industries and see what can be done to build them up. Investigate a better plan for board of public works to take up garbage twelve months in the year.

For Poor Also
"To get factories here. Make it a place not only for rich but also for the poor to enjoy a good living. Make people like to live here. 'Co-operate'.

"Have the people of the city taught they are part of the city; stop their kicking and build a 'New La Crosse'.

"Teach them to use what we now have RIGHT.

"Erection of a Chamber of Commerce building, possibly on the old Second ward school site, and facing the park with a large auditorium, urgently needed in La Crosse; also affording room for Governor's guards.

A High Bridge
"The conversion of the wagon bridge into a high bridge, in order to stop the expense of operating and the wear and tear of the old structure, which since built completely ate its head off, and doubled its original building expense, easy descent of the high bridge on this side to be made by a wide viaduct, swung over the Milwaukee tracks north and gracefully swung into Main street, this approach to the high bridge, with a continuation of the White Way, then to serve as a beautiful promenade to Pettibone park. To render assistance to the La Crosse Motorboat club in extending and improving Riverside park.

"Traffic—Street cars to stop on right hand corner before crossing to take and deliver passengers, same as in cities. Garbage—Collection for 12 months. Repairs of brick pavement. Street cars to depots.

"This city should have a building ordinance.

"The proper education and preparation of every child is the foundation of a Forward La Crosse. There should be a small but strong committee to co-operate with the school board in preparing a complete plan and submitting an estimate to the city council for an annual appropriation for better building and playground facilities for grade schools to correspond with the high standard of the high school and manual training school. The quality of teaching should be improved by raising salaries so as to draw the best talent in the country. Self government should be introduced.

CARRANZA GIVES DECREE

A REGULAR GOVERNMENTBliss Is Aid To

Border Problem

Major General Tasker H. Bliss.

NEW LONDON, Conn., Sept. 15.—If General Pershing's troops are withdrawn from Mexico, Mexican troops must be sent to replace them. General Bliss, assistant United States army chief of staff, told the Mexican commissioners here Friday.

He frankly told them the practical military advantages and disadvantages of the several suggested plans for protection of the border and went on the assumption that the task should be accomplished with as few men as possible.

The Mexican side still favored the idea of a neutral constabulary—a sort of mounted civilian police with broad powers and the Americans gave some concurrence to this idea. The Mexicans expressed the view that Villa still lives and agreed that their side of the border patrol work will be so framed as to keep him bottled up.

In general the patrol scheme contemplates the inclusion of the zone plan. Under such an arrangement, the burden of patrolling the border will be alternate, thus permitting use of fewer American troops than at present. There would also be a reciprocal crossing privilege.

MANY LA CROSSE
HUNTERS LICENSED
FOR GOPHER FIELD

La Crosse county hunters are planning to raid southern Minnesota hunting grounds. This is indicated by the fact that County Clerk Bert A. Jolivet has issued sixty-four Minnesota hunting licenses to date. Fourteen licenses to hunt in Minnesota were issued today. They were to Rudolph, Secky, Alex Major, J. Roubik, G. A. Kaeppler, Mathew Schmidt, Henry H. Hoffman, Emu Schultz, H. Herkins, William Schultz, John Fuchs, George Nietter, H. E. Hauser, Erwin Mueller and Gus A. Ott. More than 1,050 resident Wisconsin licenses have been sold by the county clerk.

Clouds Save The
City From Frost
In Coldest Night

Cloudy skies saved La Crosse county on Thursday night from frost. Central and northern sections of Wisconsin, several portions of Iowa and Southern Minnesota report heavy frosts, the local government weather bureau made known. La Crosse was visited by a temperature of 41 5-10 degrees. The city felt the coldest weather since last spring.

CONGRESS NOVEMBER 20

Manifesto Provides for Elec-
tion of Deputies and Sub-
deputies to Con-
gress

MEXICO CITY, Sept. 15.—Mexico is about to resume her place among the republics of the western hemisphere after four years of revolutionary disturbances.

A decree issued by General Carranza Thursday night, on the eve of the celebration of the anniversary of Mexican independence, prepares the way for the present de facto government to be replaced by a substantial constitutional government.

The decree calls for a revision of several articles of the plan of Guadalupe, drawn up on December 12, 1914 and makes provision for the election of members of a national congress. Another decree will be issued Saturday calling for the election of a constitutional congress on October 15. The first session of the new congress will be held November 20, probably at Coyoacan, a suburb of Mexico City.

The decree provides that each state and territory shall elect a deputy to congress and a sub-deputy for every 70,000 inhabitants, and an additional deputy if the fraction above 70,000 exceeds two-sevenths of that number. Any state or territory not having 70,000 inhabitants is entitled to elect a deputy and subdeputy also. The eligibility requirements are the same as those provided in the election of 1857. Those who opposed the constitutional government with arms will be ineligible to hold office.

Steamer Beached and Rescue
Boats Take Off the
Passengers and
Crew

MARSHFIELD, Ore., Sept. 15.—With every soul of her crew and passenger list safe, the Pacific Coast Steamship company's steamer Congress which caught fire at sea, Thursday, lay on the sands near the entrance to Coos Bay Friday a blazing wreck. Hope that any part of her could be saved was abandoned early in the day by Captain N. E. Cousins and Chief Engineer Maitland after they had made an observation of the wreck from the shore.

The story of the race with the fire demon and the saving of the lives of the 424 persons aboard is one of the most thrilling tales in the annals of the sea on the Pacific coast. While the vessel was 30 miles out at sea Thursday fire was discovered in the after-hold. At first it was not regarded seriously, but it spread with such amazing rapidity that Captain Cousins sent out a wireless call for help and turned his ship towards beach.

The gasoline schooner Tillamook, the dredge Michie and half a dozen other vessels rushed to the rescue as the Congress reeled with death towards the beach. As she neared the beach, observers could see her decks packed with humanity, huddled in the bow for safety, while long tongues of flame shot skyward from other parts of the vessel.

At 4:30 just an hour and a half after the flames were discovered, the ship dropped anchor and the Michie and Tillamook began transferring the passengers and crew. This was completed in less than three hours, without a single mishap of any kind. Captain Cousins was the last to leave his ship. There were 5,000 barrels of oil in the vessel's tanks but no other combustibles aboard. The loss will be \$1,250,000, amply covered by insurance.

The Congress was of 8,145 gross tonnage, 442 feet in length and twenty-nine feet draught.

HELP FOR WORKING WOMEN

Some Have to Keep on Until They Almost Drop. How Mrs. Conley Got Help.

Here is a letter from a woman who had to work, but was too weak and suffered too much to continue. How she regained health:—

Frankfort, Ky.—"I suffered so much with female weakness that I could not do my own work, had to hire it done. I heard so much about Lydia E. Pinkham's Vegetable Compound that I tried it. I took three bottles and I found it to be all I claim. Now I feel as well as ever I did and am able to do all my own work again. I recommend it to any woman suffering from female weakness. You may publish my letter if you wish."—Mrs. JAMES CONLEY, 516 St. Clair St., Frankfort, Ky.

No woman suffering from any form of female troubles should lose hope until she has given Lydia E. Pinkham's Vegetable Compound a fair trial.

This famous remedy, the medicinal ingredients of which are derived from native roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

All women are invited to write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for special advice,—it will be confidential.

HILLSBORO CHURCH MEMBERS TO BURN MORTGAGE AT MEET

Anniversary of Dedication of Congregational Edifice Will Mark Clearing of Debt

HILLSBORO, Minn. — (Special.)—The Congregational church will celebrate an event on Saturday and Sunday which marks a great achievement in its history. The date is not only an anniversary of the dedication of the building but represents the date upon which the entire church property became free of indebtedness. The church building and the parsonage were built at a cost of about \$12,000. The entire amount has been paid off in the past eight years. A social will be held in the church on Saturday evening. All members of the church, people outside its membership who have given assistance in the past and all former pastors have been invited to attend. Special services will be held Sunday morning.

Delicious Toast Without a Fire

Delicious toast for any meal may be had at a moment's notice without heat if you keep a package of Holland Rusk on hand.

This wholesome Dutch delicacy is toasted a beautiful light brown at the bakery and is ready to serve as it comes from the package, although its flavor and crispness are improved by heating for a few moments in the oven.

For breaded meats Holland Rusk gives a finer flavor than cracker crumbs or corn meal. Next time you have lamb chops prepare them this way:—
Lamb Chops Breaded with Holland Rusk
The lamb must be wiped with a piece of cheese cloth wrung out in cold water. Sprinkle with salt and pepper and dip in egg butter as for fish steaks. Then roll in the sifted Holland Rusk crumbs and brown in butter. A chop prepared in this way will be a great deal more juicy as the heat cannot draw out the goodness of the meat while it is browning in the butter.

Refuse Rock
The H. & N. E. Railway company is unloading five carloads of rock, shipped here in July for road work. County Highway commissioner, Ristow refused the rock and the shippers made no disposition of same. The railway company has decided to return the cars to the Northwestern. Demurrage has accumulated at the rate of five dollars per day and the matter of payment rests between the county and the shippers of the rock.

IF KIDNEYS AND BLADDER BOTHER

Take Salts to flush Kidneys and neutralize irritating acids.

Kidney and Bladder weakness result from uric acid, says a noted authority. The kidneys filter this acid from the blood and pass it on to the bladder, where it often remains so irritating and indolent, causing a burning, scalding sensation, or setting up an irritation at the neck of the bladder, obliging you to seek relief two or three times during the night. The sufferer is in constant dread, the water passes sometimes with a scalding sensation and is very profuse; again, there is difficulty in voiding it.

Bladder weakness, most folks claim, because they can't control urination. While it is extremely annoying and sometimes very painful, this is really one of the most simple ailments to overcome. Get about four ounces of Jad Salts from your pharmacist and take a tablespoonful in a glass of water before breakfast, continue this for two or three days. This will neutralize the acids in the urine so it no longer is a source of irritation to the bladder and urinary organs which then act normally again.

Jad Salts is inexpensive, harmless, and is made from the acid of grapes and lemon juice, combined with lithia, and is used by thousands of folks who are subject to urinary disorders caused by uric acid irritation. Jad Salts is splendid for kidneys and causes no bad effects whatever.

Here you have a pleasant, effervescent lithia-water drink, which quickly relieves bladder trouble,

JAP ASSURANCES MAKE IMPRESSION

WASHINGTON, Sept. 15.—Unofficial opinion expressed at the state department Thursday by those following the Russo-Japanese treaty was to the effect that the assurances of the Japanese foreign office regarding the treaty received at the department Wednesday night were satisfactory to this government. The definiteness and openness of the Japanese memorandum to Ambassador Guthrie made a favorable impression here.

The only question remaining is whether or not there may be secret clauses. Officials said they had nothing to base such a belief on and that in view of the explicitness of the Japanese statement there appeared to be no further necessity for further discussion of the matter.

RECOGNITION
My Uncle Jim, he's goin' to get A chance to make a speech. He'll show us some new ways, you bet. To make the eagle screech.

He's goin' to wake us up once more Where banners proudly float. An' show us, as he's done before, How patriots ought to vote.

It is a chance for splendid fame Which ought to make him proud. Whatever honor he may claim, That claim should be allowed. Yet his rewards are always small, We notice with regret.

A chance to make a speech is all He ever seems to get. —Washington Evening Star.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days really incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half-sick, anemic-looking souls, with pasty, muddy complexions, we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessarily as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the acid, indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, a bad stomach, nervous days and sleepless nights have become real rascals about the morning inside bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

The Searchlight

WHIPPING A CURE FOR NERVES

A unique device, which its inventors claim is invaluable in curing nervousness as well as paralysis, numbness and many other disorders, consists of two whipping posts between which the patient stands. Straps of cloth or leather are attached to the posts which revolve rapidly. Their revolution causes the straps to strike the patient upon the legs, abdomen, chest or arms, according to the malady for which he is taking treatment. The straps are broad enough to prevent any cutting blows. They do not sting or smart, but have sufficient force to stimulate the circulation in the parts they strike. The posts are kept in motion by an electric motor capable of being regulated to different speeds.

And a Handkerchief

Marie, supple and slender, and Aunt Clara, bulky and benign, had returned from a shopping expedition, during which each had been trying to buy a ready-made suit.

At the house Marie was asked what success she had in her efforts to be fitted.

"I got along very well," said Marie, "but Aunt Clara is getting so fat that about all she can get ready-made is an umbrella."

LA FOLLETTE LAID THE FOUNDATION

For so long that most people have probably forgotten it, a governmental investigation of the physical value of railroad property has been under way. A committee of congress is about to begin another and apparently very sweeping investigation of the whole subject of the relations of privately owned railroads to the public.

So we ought to get somewhere pretty soon. This matter of the dispute between the roads and the trainmen's unions shows that we can hardly be said to have got anywhere yet. Last winter the unions, acting as a countrywide unit, presented certain demands to the railroads as a unit. Failure to agree implied paralysis of the country's land transportation. There is failure to agree. It comes to the eve of a strike. The president, at the fifty-ninth minute of the eleventh hour—with considerable other business on his hands—seizes the bull by the handiest horn to avert a national calamity.

It illustrates an essentially unsettled relationship. We have government control—exercised by forty-odd independent and frequently conflicting bodies, some of them quite frankly animated by the policy of what the traffic will bear; in other words, of how much can be got out of the railroad for the shipper. The railroad policy, no doubt, is to some extent at least the reverse of that. Neither policy represents the true public interest.

Out of the pending investigations a fairer, more stable relationship ought to issue.—Saturday Evening Post.

When Senator La Follette was making his fight against tremendous odds to force the physical valuation measure through congress a large element of the American press hooted the plan and the railroads themselves offered desperate resistance. It is a few months, if memory serves, since the "Post" published an editorial containing sarcastic reference to that measure.

But since the threat of a great railroad strike forced the country to face a tremendous crisis, magazines and newspapers generally are turning to the completion of physical valuation of the railroads as the one basis upon which a solution fair to both parties and to the public may be reached. What La Follette said in the first place was true and is true now: Government regulation of railroads must fail unless the interstate commerce commission may know, as do the roads themselves, the actual intrinsic value of all railroad property. Obviously, this must be known before judges can say what are fair rates and what are fair wages. The government now has control over the former and the day is not far distant when the government will exercise equal control over the latter, so far as public utilities are concerned.

HUGHES OR WILSON IN WISCONSIN?

The outcome of the presidential election in Wisconsin may be said to be in doubt, although surface indications rather strongly suggest the triumph of Mr. Hughes. Militating in favor of Mr. Hughes are the normal republican predominance in this state, the hostility of our large German population to Wilson, and the fact of Mr. Hughes' endorsement by both progressives and conservatives at the national republican convention.

No doubt should the German-American alliance undertake an intense Hughes campaign their efforts would tend to solidify citizens of all parties who are hostile to the German propaganda in America, in support of Wilson, whose position on this question, stated more directly than that of Mr. Hughes, has its appeal for them. It is also true that Mr. Hughes' declaration for women suffrage will cost him some votes in Wisconsin, where suffrage was beaten three to one, but the frankness with which he has stated his position upon this issue may win, even from its foes, admiration which in a measure should offset defection. Summing it all up, one feels that despite Germanic influence here Mr. Hughes can make votes for his opponent by bitterly assailing the administration's policy with relation to the European war, for Wisconsin is an American state. But assuming a fair and intelligent campaign on their part, the republicans should carry the state.

POSSIBLE INFLUENCES

The issue between Governor Philipp and Bert Williams, rival candidates for the governorship, will be somewhat affected by the action of their respective parties in organizing for the campaign.

Governor Philipp, should he control the republican platform convention, may spread a little salve by way of concessions to progressive thought in the party platform. He may add to the soothing effect of this policy by recognizing the rights of progressives in party organization in districts where their strength in the election justifies this action.

The character of the democratic platform, too, is important. In past years the conservative democrats have attempted, with varying success, to give their party declarations the emphatic stamp of conservatism. If in the present case they forego their party fight and make coin of the opportunity to write a platform that must appeal to progressive thinkers, thus harmonizing Mr. Williams and his campaign promises, they will improve their prospects, particularly should Governor Philipp pursue a course calculated further to provoke liberal republicans.

SAUCE FOR THE GOOSE SAUCE FOR THE GANDER

Reverting to Alderman Mahoney's opposition to the junket of the mayor and certain aldermen, interposed in a meeting in which he had secured the passage of a resolution to send the fire chief on a similar junket, we seem to recall that Alderman Mahoney has personally participated in junkets at the expense of the city.

Wasn't it sometime along in February or March, 1915, that Mr. Mahoney was one of several aldermen who went to Milwaukee to inspect fire trucks, drawing his expense money from the city treasury?

Now there is no doubt that the trip of Alderman Mahoney was worth while, nor that the city justly paid the cost of the aldermen's journey. But for the life of one how shall we distinguish between the merits of Mr. Mahoney and others inspecting fire apparatus in Milwaukee, and the mayor and others inspecting all kinds of city machinery and getting pointers from the experiences of other mayors at Oshkosh?

Parson Guilty, Too?

A preacher, at the close of one of his sermons, said: "Let all in the house who are paying their debts stand up." Presently every man, woman and child, with one exception, rose to their feet.

The preacher seated them and said: "Now, every man not paying his debts stand up." The exception, a careworn, hungry looking individual, clothed in his last summer's suit, slowly assumed a perpendicular position.

"How is it, my friend," asked the minister, "you are the only man not able to meet his obligations?"

"I run a newspaper," he answered, "and the brethren here who stood up are my subscribers, and—"

"Let us pray," exclaimed the minister.

BUDAPEST

Budapest is alive with the spirit of Hungary, a city with a personality like the crack of a whip and the soul of an energetic barbarian. The trolley cars run at a speed that would startle Philadelphia, the cabs seem continually to be trying to catch departing trains. The food burns the mouth, and the music is a torment with its elusive beauty, always just about to round itself out and fulfill itself, and never quite succeeding—perhaps never caring to succeed.

In the music, in fact, you can hear the voice of Hungary speaking as clearly as the still small voice after the storm—only this voice is neither small nor still. No people put a title as much of themselves into their music as the Hungarians. The bands and orchestras are made up entirely of gypsies, but gypsies are the mouthpiece of the populace. A Hungarian turns to his social and civic life as naturally as an Englishman writes letters to the Times.

The music of the gypsies is a perpetual miracle, re-enacted each time some chubby brown boy of four struggles with his father's violin until he is capable of pouring out his dark oriental soul through it. A music teacher in a gypsy community is just as essential as a swimming teacher in a flock of Pekin ducks.

A gypsy orchestra plays by ear, with swaysings and contortions of the body that would be absurd did they not respond so perfectly to every changing shade of emotion in the harmony. The leader stands before his men, directing them apparently by personal magnetism. He changes his tempo and his key as the fancy strikes him, but he can no more lose that orchestra than a donkey can lose a burr in his tail.

The playing shows of course that the players are untaught in the ways of the schools. The second fiddle is just as likely to press his instrument against his chest as against his chin; the pizzicato passages, when the strings are plucked instead of bowed, are hard on the stoutest fiddle. The player jerks as though he would tear the melody out by the roots. There is no scrap of the restraint that accompanies sophisticated artistry. But the soul of music is there, as it is in the soul of Hungary.

Short Story

ACCEPTING ASSIGNMENTS

BY SEFTON LEE.

(Copyright, 1916, by the McClure Newspaper Syndicate.)

Jean Granby sat among the pillows on the window seat. Her mother and father and her aunt and uncle, who had come in to spend the evening, sat around the fireplace. They had gone through their usual thorough discussion of the temperature as compared with October evenings of former years. Jean's brother Jack, who stood by the library table puffing a cigarette, picked up the Evening Argus and looked carelessly over its four pages.

"Gee! A deaf and dumb and blind man could get up more news than this paper prints," was his sweeping criticism.

"Well, isn't news a record of things that happen?" asked Jean.

"Search me," laughed Jack. "What is news, anyway, Uncle At?"

"I should say that news is a record of anything that has recently happened," said Judge Atwood seriously, "or of anything not before known, though it may have happened some time previously."

"Then I call it a farce to try to have a newspaper in Marston," said Jean.

"Why, Jean," her mother mildly rebuked. "I consider that Mr. Edwards gives us a very good paper, with all the leading events faithfully chronicled."

"I'm not blaming Mr. Edwards, mother, but if news is a record of what happens, nobody could run a good newspaper in a town where nothing ever happens."

"What you should do, Jean," said Jack teasingly, "is to supply a bit of news yourself, so that Marston folks might read at high noon today two prominent families were united when Mr. Hiram Peabody led to Hymen's altar Miss Jean Olivia Granby, the beautiful and accomplished—"

Jean interrupted him with a contemptuous sniff, and he broke off with this retort: "Talk about the inconsistency of woman, will you? You growl because the Argus has no news and then scorn the idea of supplying it." Jack dropped his head and shielded it with his hands to ward off imaginary missiles as he passed Jean on his way to the hall.

The thoughtless brother had given Jean a suggestion which she thought over all during the evening. The next morning, she astonished Mr. Archibald Edwards by appearing in his sanctum and asking for a job as reporter on the Argus.

"Why, Miss Granby, nothing would please me more if it were practicable, or even possible," stammered the surprised editor, as he rose from his roomy swivel-chair and wiped his steel-rimmed spectacles.

"Now, Mr. Edwards, first let me tell you what a practical and possible plan I have," Jean was convincingly in earnest, and she made a charming picture in a trim blue cheviot suit and a Highland cap with a bit of plaid ribbon dangling from it. Her dark eyes flashed and her color deepened as she unfolded her plan, which was to arouse the social and the civic spirit of Marston by a persistent appeal through the Argus. There was to be a column headed, "It's Up to You," another headed, "How the Women Can Help," and another, "Marston's Many Merits." There were to be frequent articles to interest the children, occasional reminiscences with older citizens and a general write-up of the town's business enterprises.

"Truly a promising plan," said Mr. Edwards, "but it would be a gigantic task to carry it out, and my office force is small."

"But I'm asking you to increase it by taking me on," said Jean, with a winning smile, and an hour later Mr. Edwards was unable to tell whether it was the bonnie smiles of the applicant or the plausibility of her plan that had induced him to "take her on."

The plan worked so well that a few weeks after Jean began her work on the paper there were many evidences that Marston was beginning to shake off its social and civic stagnation. In the Argus office rushing activity became the daily program in all departments. The advertising columns grew with the general infusion of new life, and the boiler-plate columns became only a memory.

On the same morning that the foreman's wife telephoned the office of her husband's illness with the grip Mr. Edwards had a violent seizure of lumbago. Jean faced the crisis bravely, but she realized the impossibility of getting the paper out in any sort of shape with the two main springs of the machinery missing. She remembered having heard Mr. Edwards say that his nephew, now a reporter on a city daily, had been a most promising all-around newspaper worker when he left the Argus office a few years before. Something had to be done quickly, and Jean decided to telegraph for the nephew, for there wasn't an available man in Marston. She didn't even ask Mr. Edwards' advice, not wanting to add to his discomfort by letting him know that the foreman had failed them. She lost no time in sending the following message to Bert Edwards, in care of the Record-News:

"Down with lumbago. Foreman has grip. Important issues delayed. Can you help out a few days? Uncle George."

Mary Miles Minter succeeded in inducing her director to alter the plot of her first production at the American studios in Santa Barbara to give an important role to "Mickey Mutual," the little ragged skye-terrier she carried from New York. "Mickey" is featured in Miss Mary's picture, entitled "Youth's Endearing Charm."

Miss Minter is now working on another big feature. Five-act plays in which she is to star this fall and winter are: "Dulce's Adventure," "Faith," "Sunshine" and "Fortune."

Kellerman Film Ready

At last the long looked for William Fox film spectacle, "A Daughter of the Gods," starring Annette Kellermann, is ready for public view. It has been passed in its entirety by the national board of censors, which august body sent Mr. Fox a personal letter of congratulation for the careful manner in which he had conformed to its requirements. When it is known that the picture went through without change or suggested alteration, it will be understood that Mr. Fox has accomplished no mean feat.

The members of the national board and a few invited guests witnessed the showing of the picture at the Academy of Music, New York. An orchestra of more than forty pieces played the musical score written by Robert Hood Bowers, author of many famous Broadway musical comedy successes. The running time of the performance, inclusive of the intermission, was two hours and forty minutes.

In part, the congratulatory letter from the national board to Mr. Fox said:

"The committee felt that the work of Annette Kellermann was highly commendable, particularly the wonderful scenes in which she appeared in the surf."

William Russell has added a trained squirrel to his weird collection of pets at Santa Barbara ranch. The squirrel played an important part in the current release entitled "The Strength of Donald McKenzie," the third of the American Film company's eight William Russell productions.

Mr. Russell claimed that the Canadian squirrel is a species rarely ever to be trained. This fact may account for an offer of \$200 which was recently made Mr. Russell for his new pet, which offer was promptly refused.

He usually attends the game minus hat or coat, then rolls up his sleeves, puts a cigar in his face and concentrates his attention on watching the game and complimenting the players. At the end of nine innings Jay has used up two boxes of matches and has chewed up two perfectly good cigars. This neither dampens his ardor nor interferes with his appetite.

Ann Pennington, the Follies dancer who made her initial appearance in pictures as the star of "Susie Snowflakes" is to appear shortly in a second picture, a circus story to be called "The Rainbow Princess."

message reached the office:

"Will arrive at two p. m. and go direct to office. Bert."

It was then ten o'clock and the first edition should be out by one, so Jean rolled up the sleeves of her soft white shirt waist and for the next three hours fluttered back and forth from editorial desk to composing and printing rooms. It was one-thirty when the first edition was out and there was not a minute to be spared in getting it on the outgoing trains to nearby towns.

When Jean sat down at the desk to snatch a bit of lunch her cheeks were flushed and her hair was rumpled, but she was fairly satisfied with the day's achievement so far. She was turning the damp pages of a paper just off the press with one hand and holding a remnant of cracker and a piece of cheese in the other when the office door opened and a tall, broad-shouldered man entered the room. It had evidently been more than a few years since that man had been merely a promising boy, yet Jean rightly guessed that he was Mr. Edwards' nephew.

"Mr. Bert Edwards?" she asked, and there was a slight twinkle in the man's gray eyes as he inclined his head affirmatively.

"I am Miss Granby, special writer on the Argus, but today I've been editor and foreman as well. I'm going to ask you to take hold of the foreman's work at once so as to get the home edition out promptly. When that is done we can work together on tomorrow's editorial page. I've got to give the next two hours to some special interview stuff."

Thus coolly did Jean assume the generalship, and the tall man accepted the assignment without letting her see his amused smile as he turned away. For the next two days, he did cheerfully and went about what should be done. When things got to running smoothly and Jean's mind was freed from its anxiety, she began to take more notice of this

young man, but on the morning of the third day Mr. Edwards returned to the office.

"Bert, my boy, it was like you to help me out in a pinch," he said, in greeting his nephew, "and Miss Granby, it was like you to know what to do in an emergency. I'm glad you sent for Bert. But how did your chief happen to let you off, Bert?"

"I'm pretty much my chief, Uncle George, and I had two capable young fellows to leave at my desk."

"At your desk? Why, what's your position now?" asked his uncle.

"City editor," said Bert quietly, with a fleeting glance at Jean, who vanished blushing into the next room.

Half an hour later, when Mr. Edwards was deep in his accumulation of mail, Bert encountered Jean among some old newspaper files. She came to him at once with her hand extended in apology, and her shy confusion helped to make her unusually attractive looking.

"I hope I haven't seemed unpardonably priggish," she said, "giving assignments to a superior. I was so concerned about getting out the paper that I lost all sense of everything else for a time." Bert held her hand and looked straight into her eyes.

"They were such agreeable assignments that I wish they might continue indefinitely," he said.

WINNEBAGO INDIAN CHILDREN ENTER TREMPPEALEAU HIGH

Lena and Howard Little Bear Become Apt Pupils of Trempealeau High School; First Indians to Attend School

TREMPPEALEAU, Wis.—(Special.)—The Trempealeau high school has two very interesting pupils this year. They are Lena and Howard Little Bear, children of Mr. and Mrs. James Little Bear, aged 8 and 12 years, and full blooded Winnebago Indians. They are very bright and attractive children and Miss Harrington, their instructor, says she has no more apt pupils under her supervision. Mr. Little Bear, together with his brother, own a farm about two miles from Trempealeau and are very prosperous.

These two children are the first full blooded Indians to enter the high school here.

LIFE POSING AND MODERN DANCING FEATURE THE BILL

Interesting life-poses after classic statues and a display of ultra-modern dancing are the chief features of interest about the new vaudeville bill which opened Thursday at the La Crosse theater. The posing act is remarkable for the extraordinary effects which are attained with draperies. Except for the fact that it rings in "The Star Spangled Banner" to close, the act is one of the best of its type.

Marion and Martinez Randall are the dancers. They have a program of three dances, of the cabaret-interpreting school, the last of the three being a close relative of the old-fashioned cakewalk. Their act was received with marked approval.

Godfrey and Henderson have a "talking act" with more than the average amount of intelligence in its subject matter and arrangement. It is full of the verbal explosiva known as pep, and be-sprinkled with sufficient jokes to keep the house on the titter. It has also, remarkable to relate, a song that fits.

A dog and pony show in which dogs jump rope, among other things, and a monologue in which Fred Lundy displays a well handled Norsk dialect, make up the rest of the bill, with the Pathe pictures.

LEW FIELDS IS STAR IN "OLD DUTCH"

If the telephone ever became perfected it would enable you to see, as well as talk to, a person at a distance and we should all have to be as good as good. We wouldn't dare to be otherwise. We could all see what each other was doing.

Ludwig Strauss perfected such a device, and got a wealthy man to finance the proposition after showing him that it would work in practice.

To avoid publicity Old Dutch otherwise Ludwig Strauss, registered at the hotel under an assumed name; lost his money; couldn't pay his bill; was obliged to submit to the mortification of seeing a couple of imposters masquerading as himself and daughter; but finally was rescued from his unpleasant predicament by the medium of his own invention. The play of "Old Dutch" with Lew Fields in the title role, was a great success, and now that the theme has been transferred to the screen it loses nothing of its wit; its pungent humor, its honest fun—fun that is absolutely devoid of offense and vulgarity. As pure comedy, this five reel offering will probably receive widespread commendation, all the more markedly because so many comedies that have recently been presented to the public have got their laughs by regrettable means. "Old Dutch" is clean from beginning to end.

As the lovable old inventor, who undergoes so many distressing changes of fortune, Lew Fields gives a performance of infinite tenderness, humor and charm. You see him as the exultant inventor, glad that his success can enrich his darling girl; then as the lover of children at the great hotel; next as the degraded waiter, barber, hotel help, hiding his time, for the opportunity of unmasking the fat vaudevillian who has robbed him of his name and money. At the Casino today.

SIX DIE WHEN TANK OF AMMONIA EXPLODES

NEWARK, N. J., Sept. 15.—Six persons were killed, including Samuel Botkin, president of the Interstate Milk and Cream company, and three were injured in the explosion of an ammonia tank in the milk company's plant on Thursday afternoon.

The tank had just been installed and was being tested when it let go. Harry Lutz, engineer of the plant, was among the killed.

Louis Menkowitz, son-in-law of Botkin, is also among the dead.

Louis Hellis, secretary to Botkin, and two salesmen, Jay F. Ballou and Charles A. Caine, were the others killed by the fumes from the tank.

Ballou who is a salesman for a bottle company, lived in Richmond Hill, L. I. Caine represented the Dominion Chemical company, of Syracuse, N. Y. His home was in New York.

The three injured men were workmen.

SWEDEN HOLDS UP COFFEE

BERLIN, via Wireless to Sayville, Sept. 15.—Presumably in retaliation for the stoppage of coffee shipments to Sweden by the British government, Sweden has detained 10,000 tons of coffee destined for Finland, said a Stockholm dispatch Friday. There is a great scarcity of coffee in Finland as a result.

Men seldom follow advice unless they pay for it.

Save the Babies.

INFANT MORTALITY is something frightful. We can hardly realize that of all the children born in civilized countries, twenty-two per cent., or nearly one-quarter, die before they reach one year; thirty-seven per cent., or more than one-third, before they are five, and one-half before they are fifteen!

We do not hesitate to say that a timely use of Castoria would save a majority of these precious lives. Neither do we hesitate to say that many of these infantile deaths are occasioned by the use of narcotic preparations. Drops, tinctures and soothing syrups sold for children's complaints contain more or less opium or morphine. They are, in considerable quantities, deadly poisons. In any quantity, they stupefy, retard circulation and lead to congestions, sickness, death. Castoria operates exactly the reverse, but you must see that it bears the signature of Chas. H. Fletcher. Castoria causes the blood to circulate properly, opens the pores of the skin and allays fever.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*.

OWNERS DECLARE STRIKE BROKEN MEN DISAGREE

NEW YORK, Sept. 15.—With subway and elevated lines running at better than normal capacity and taking care of the overflow from the tied up surface lines, officials of New York's traction systems declared Friday the car men's strike was broken.

With a showing of some 10,000 former employees sticking to their strike union labor leaders countered with a threat that unless a settlement came on their own terms, they would tie up the city on Monday with a sympathetic strike of 400,000 trades unionists. Between the two divergent forces, Mayor Mitchell and the public service commission were seeking—so far in vain—to obtain some middle ground for adjustment.

Ralph Fasseno, driver of an ice truck, was hurled twenty feet and probably fatally injured, when a Third avenue car plunged down a grade at 96th street Friday into the truck. The strike-breaking motorman, William McGowan, and several passengers were cut and bruised. Anna Schwartz, 22, a passenger, had both hips dislocated.

Numerous instances of "bombardment" of elevated by milk bottles, stones and other handy missiles were reported Friday. No one was injured. One shot was fired, the bullet lodging in the woodwork of the car.

The socialist headquarters here today announced a campaign for municipal ownership of all transportation lines in the city, with a series of meetings to thresh out all sides to the issue.

ACIDS IN THE SYSTEM

Acids accumulating in the system in excess, poison the blood and cause a great variety of diseases, affecting the skin and other mucous surfaces, the heart and arteries, brain and general nervous system, joints and muscles.

Some of these diseases are Rheumatism in its many forms, Catarrh, Eczema, Hives, itching and burning of the skin, dizziness, mental depression and a variety of other ailments. You must eliminate the acid from your system and purify your blood before you can be rid of your trouble.

S. S. S. has been purifying and nourishing the blood for over half a century. It is also a very efficient tonic and being purely vegetable, it is the most efficient agent known in the cleansing of the blood and toning up of the system.

\$13,000 FOR BEER OPENER

NEW YORK, Sept. 15.—On September 13, Charles B. Baker, sold for \$13,000 a patent beer opener which he invented thirteen years ago. It fits on the heel of one's shoe.

Here's a question that the spirits of the millions of dead soldiers of Europe may have answered in eternity—it will never be answered on earth: "Why did we die?"

The DOCTOR'S ADVICE

by Dr. Lewis Baker

The questions answered below are general in character, the symptoms or diseases are given and the answers will apply in any case of similar nature.

Those wishing further advice, free may address Dr. Lewis Baker, College Bldg., College-Ellwood Sts., Dayton, O., enclosing self-addressed envelope for reply. Full name, and address must be given, but only initials or fictitious name will be used in my answers. The prescriptions can be filled at any well-stocked drug store. Any druggist can order of wholesaler.

swell and your eyes have puffs under them, your urine scant with much color and bad odor, I would suggest the immediate use of balmwort tablets to relieve this condition.

"Spring" writes: "I have two or three boils on my face and my complexion is yellow. My eyes are dull and my tongue coated. I am very nervous and tired all the time. Can't sleep at night, and am constipated."

Answer: Your blood and nerves are impoverished and diseased. This results from continued constipation. Get three-grain sulphur tablets (not sulphur). They should clean your blood, and digestion and stop constipation. The boils are indication of bad blood.

"Grace" writes: "My hair is awful looking. It is dry and broken and doesn't grow any more. When I scratch my scalp a kind of white, scaly, oily substance comes off. I think it may be a kind of dandruff."

Answer: To overcome the itching scalp and make it healthy, use plain yellow minyol. The minyol will produce a beautiful, soft, luxuriant growth of hair by properly cleaning and stimulating the scalp.

"S. T. A." asks: "How may I get relief from a cold and cough, which 'just hangs on'? I am afraid it will become chronic, and I am already losing strength."

Answer: Start at once using concentrated essence mentho-laxene. You may either use this as it comes, in concentrated form, or mix it with one pint of simple sugar syrup as per directions on label of each 2 1/2 oz. bottle. It is highly efficient in treatment of colds, coughs, etc. It opens up the air passages and relieves the system of the cold inflammation through the natural excretory organs.

"W. L." asks: "Why do you suppose I have such a sallow, pasty complexion? I think my kidneys may be affected, as I have pains in the small of my back all the time."

Answer: The pains in the back might indicate kidney trouble, and if you have headaches, your feet

SUNDAY WILL BE LA CROSSE DAY AT CONGREGATIONAL

Sunday September 17 will be La Crosse Day at the Congregational church. In the morning, the sermon will be, "Working Together," which is not only the essential motto of the new Chamber of Commerce, but is also the essential motto of the Christian church.

In the evening at 7:30 o'clock, Prof. John L. Gillin, Ph. D., of the Wisconsin university, and Secretary of the Association of Churches and Corrections, and a man of national reputation along civic lines, will speak upon the subject, "The Church and Social Service."

Many people do not know what might be done by the church for social service. These should hear Professor Gillin. Many others have no appreciation of how much is already being done by the church for social service. These too should hear Professor Gillin.

The Bureau of Civics of the Chamber of Commerce, and all uplift organizations of the community are specially urged to hear Professor Gillin's address.

YOU WANT PINK CHEEKS

Every woman wants pink cheeks. They mean not only beauty but health. Tien put the color in your cheeks, not on them. The glow of health is the red of healthy blood showing through translucent skin. It is impossible without rich, red blood.

When a girl's color fades and she looks debilitated, is short of breath, when her heart palpitates after every slight exertion and she has pains in various parts of the body she needs Dr. Williams' Pink Pills for Pale People.

They are the remedy best suited to restore the blood, bring brightness to the eyes and put color in the cheeks and lips.

The only other treatment needed costs nothing. It is this. Give the patient plenty of sunlight, moderate exercise every day, not enough to cause fatigue, and use care in the diet because the food craved is often not the best for the condition.

Two books, "Building Up the Blood" and "What to Eat and How to Eat," give just the information that every mother of a growing girl needs. They are free. Write for them today to the Dr. Williams Medicine Co., Schenectady, N. Y. Your own druggist sells Dr. Williams' Pink Pills or you can send fifty cents for a full-size package.

YOUNG PEOPLE'S SOCIETY

Birthday Social Of The Baptist Ladies A Delightful Affair

An unusually pleasant affair was the "Birthday Social" given under the auspices of the Ladies' Industrial circle of the First Baptist church at the church, Thursday afternoon, the event partaking of the nature of a "get-together" meeting after the summer vacation.

The guests were accommodated at tables decorated to represent the various months of the year, each lady being entertained at the table of the month in which her birthday occurs. There were six of these tables each representing two months, and on each was a receptacle for the receipt of the birthday offerings. In this way the treasury of the society was the gainer by a comfortable sum.

Prior to the serving of refreshments a program of music and recitations was given. Piano selections by Misses Margaret Skaar, Hilda Williams and Mildred Schroeder were well received, as were also a piano duet by Agnes and Paul Johnson. Mrs. John Harley, Jr., entertained in a pleasing manner with a group of three readings, while other readings by Miss Ruth Boynton and Ellsworth Moore were greatly enjoyed.

A pleasant feature of the program was a talk by Miss Edith Town, state elementary superintendent for Baptist Sunday schools, who outlined her work in a most interesting way. The birthday tables presented a pretty appearance, their decorations being in conformity with the months each represented.

The December and January tables were indeed Christmas in appearance, a miniature Christmas tree centering the table, with a string of Christmas bells suspended above the table. Illumination was furnished by red candles. Mesdames John C. Card, Abner C. Gran and Samuel Johnson were in charge here.

Mesdames W. R. Thomas, Charles F. Emery and Charles Rysdon presided at the February and March table, and here was seen a riot of hearts and cupid's and shamrocks as befitting the months of Valentine's and St. Patrick's days. A mass of beautiful "snow-on-the-mountain" centered the table and the candles here were of red and green.

A tiny May pole centered the April-May table, which was in charge of the Misses Lily Schimin and Charlotte Emery and Mrs. Charles Moore. Tiny dolls held the ribbons radiating from the May pole and over the entire surface of the table were scattered purple violets. Easter eggs, chickens and rabbits, reminders of Easter, were also in evidence here.

A patriotic table was the June-July table with its flags and firecrackers, and centered with a large white birthday cake with red tapers. Two large flags were displayed crossed on the wall back of the table. Here presided Mrs. F. W. Rawstron and Miss Grace Drake.

The August-September table was gay with a profusion of bright-hued autumn flowers and was in charge of Mesdames Leon Moore, Charles Schimin and Otto Schroeder. At either end of the table was placed a basket of nasturtiums and sprays of flowers were scattered over the table.

The October-November table brought to mind memories of Thanksgiving and Halloween and was presided over by Mesdames Harry Long, Charles Collins, W. V. Williams and Anna Lewis. The centerpiece was a most lifelike mother turkey, surrounded by her brood of little turkeys. Red candles shed a soft glow over the table, and jack o'lanterns and other Halloween reminders were also seen here.

INSTALLATION

Ladies of the Maccabees, New Century hive 101, will have private installation of officers Friday night at Woodman hall. Mrs. L. Weisbecker and committee have charge of the program under "good of the order," and Mrs. A. Martinek and committee will have charge of the refreshments.

YOUNG PEOPLE'S SOCIETY

The Young People's society of the English Lutheran church was entertained at the church parlors, Twelfth and Ferry streets, last evening for the first meeting of the year, the hosts being the Misses Maude Christianson and Leona Larson and Mr. Benjamin White. A short program was given, opened by a piano selection by Miss Anderson, which was followed by a short talk by Prof. W. C. Greenwalt, who sought to impress upon the young people a realization of their duty to the church. A recitation by Miss Grace Ketchel completed the program, after which refreshments were served.

PRIMARY PUPILS PICNIC

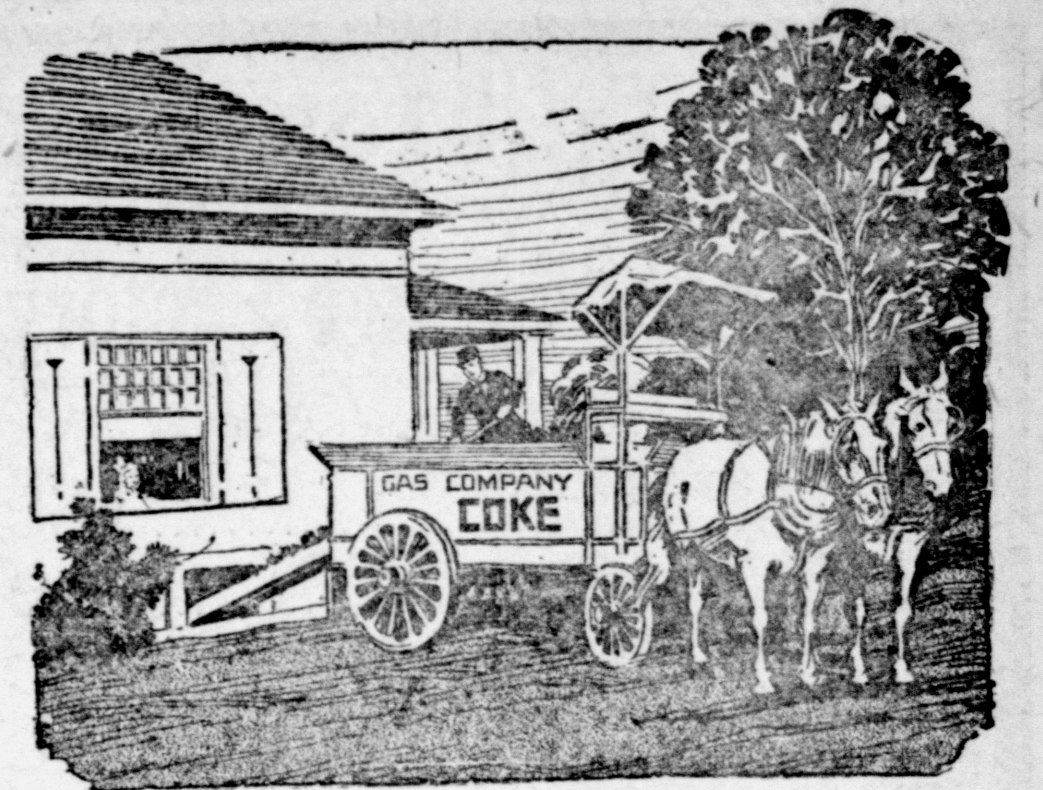

The primary department of the Sunday school of the First Presbyterian church will picnic at Myrick park Friday. Lunch will be served at noon.

ENTERTAIN AT CARDS

Mr. and Mrs. E. F. Briebach, 1529 Wood street, entertained a number of friends at cards Wednesday evening. Five tables were played and the favors were awarded to Mrs. Jack Davis, Mrs. Elmer Hardy, James Willson and A. Hardy. At eleven o'clock a dainty collation was served. In the party were the Messrs. and Mesdames D. Wartigbee, George Larkin, Jack Davis, Al Hardy, F. C. Herrington, R. Roeder, E. Frey, James Canan and Elmer Hardy of Pocatello, Idaho, and Mrs. Fred Stallsmith.

SALEY-PATSCHELL

Miss Tillie Patschull and Anton Saley, both of La Crosse, were united in marriage by Rev. J. Bergholz at the parsonage of the Emanuel Lutheran church at half-past seven o'clock Wednesday evening. The

JUMPS FROM TRAIN IN ESCAPE ATTEMPT

NEW YORK, Sept. 15.—Arthur Waltonen, self-confessed accomplice in the murder of Mrs. Elizabeth Nichols, aged widow, who was killed and robbed of jewelry valued at \$16,000 about a year ago, hurled himself from the New York Central flier as it passed through Montrose, N. Y., early Friday either in an attempt at suicide, or to escape from detectives who were bringing him here from Ironwood, Mich. It was at Ironwood that Waltonen was arrested and made his confession.

Eluding his guards for a moment, Waltonen threw open the door of the car and deliberately jumped. He was found to be severely injured when picked up by detectives who recaptured him after the train had been stopped.

IOWA MAN SAYS COFFEE CAN BE RAISED IN STATE

WEBSTER CITY, Iowa.—(Special.)—Non-importation of coffee will not trouble this state greatly, if the claims of M. J. Baughton, of this vicinity are to be believed. Mr. Baughton has recently gathered a bushel of what he thinks as fine coffee as can be imported and believes that the berry can be raised equally as well in this state as in foreign countries.

Dewey to Chicago

D. C. Dewey, superintendent of the La Crosse Rescue mission, leaves on Friday for Chicago. Mr. Dewey will attend services commemorating the fortieth anniversary of the founding of the famous Pacific Garden mission. Memorial services will be held for the late Harry Monroe. Mr. Dewey will be joined in Chicago by J. C. Eveland, a convert of the local mission who now has charge of the mission at Galesburg, Ill.

COUNTER-ATTACKS ON HUGHES CHARGES IS PLAN OF PRESIDENT

ASBURY PARK, N. J., Sept. 15.—Vigorous attacks upon the republican charges of sectionalism under the democratic administration and amplification of his position on the eight-hour legislation in settling the railroad controversy will feature President Wilson's early campaign speeches. It was learned Friday.

Democratic leaders believe Hughes is determined to make these issues paramount questions of the campaign and the president has indicated his willingness to accept them both.

AMERICAN ABOARD SUNK BRITISHER SWEARS TO TORPEDO

LONDON, Sept. 15.—Frank Callingham of Philadelphia, a fireman aboard the Harrison liner Counselor, made an affidavit before the United States consul at Queenstown that the Counselor was torpedoed.

The captain and crew of the Counselor were landed at Queenstown.

Callingham, who is an American citizen, shipped aboard the Counselor when she touched at San Francisco. His wife is now at Atlantic City, N. J.

A London dispatch Thursday night said the Counselor was "sunk" and that her crew was saved, but nothing was reported about the circumstances of the sinking.

The Counselor was last reported as having sailed from Colon, Panama, August 27, enroute from Vancouver for Liverpool. She probably was sunk near the British Isles. The Counselor displaced 4,958 tons and was 400 feet long. She was owned by the Charente Steamship company and registered at Liverpool.

BIG FIELD LAID OPEN TO CIVIC BUREAU'S EFFORT

(Continued from Page 1.)

ed in the schools and so make good self-reliant citizens and future members of the board of trade.

Boost Recreation Center

"One of the civic improvements to which the new organization should give its support to general public advantage would be in advancing the plans of Mr. Joseph Hixon for the new recreation center, for which plans have already been prepared, in connection with Riverside park. This likely can be financed without assistance from the Chamber of Commerce if it is given the necessary moral support.

"Promote commission form of government. Recognize and support those institutions doing community welfare work, educational and moral. Provide more recreational features in public parks for adults—tennis, indoor ball.

"Make La Crosse a dustless city, especially on Sundays, when every automobile does its very best in deluging the houses and porches with dust and sand, making life miserable for the non-autoist and those who desire a few hours of recreation on their porches.

"Good roads.

"Better built buildings and a strict enforcement of the new 'State Building Code'.

"A rest room for farmers and their wives should be established.

"Change name of Main street.

"Extend the White Way on Rose street across the bridge.

"Public comfort stations in our parks and other prominent places in the downtown district.

M'Gilvray Bridge

"Immediate construction of Mc-Gilvray bridge. No one realizes the trade lost through the closing of that road.

"Get away from the narrow, selfish traits so often exhibited in the past. Look at things from the broad point of view.

"Simplify form of local government and reduce valuation and tax rates so as to interest outsiders who are now shy because of these.

"Restoration of Mc-Gilvray bridge which would lessen the distance by approximately ten miles. Also better railroad service on the Green Bay, both passenger and freight; scheduled at present favoring Winona.

"To confer with the chief of the fire department as to defective electric light wiring and general fire waste.

"City Government—Investigate thoroughly the working in Dayton, Ohio; Galveston, Texas; Omaha, and smaller cities (our size) of the new progressive form of city government. Street oiling and repairs; better lighting; municipal art.

"Fill in a few blocks on each side every year between the north and south side.

"Each bureau should select at least one advantageous thing for the city as a whole that because of its plausibility the chamber as a whole must approve, i. e., 'unity of purpose.'"

PAID \$1,000 FOR SALOON KEY SAYS AGED COMPLAINANT

That John Beck paid \$1,000 for the key to a saloon, and practically nothing else, is the information unearthed by the police in questioning the aged man who appeared Thursday against A. B. Molitor, his nephew, charged with stealing \$1,000 while his 78-year-old relative was asleep. Beck took over a business about a month ago. He paid \$1,000 he told the police, and the seller left for the west immediately. Since then the aged man has gradually discovered that the building and fixtures of the saloon belong to a brewery, and that the stock of goods was mostly not paid for.

"All I got for my \$1,000 was the key," the aged man told Chief of Police John B. Webber. A Calcedonia hotel man was formally arraigned before Judge John Brindley on Thursday afternoon and charged with the theft from his uncle. Molitor pleaded not guilty. He retained Wolfe, Wolfe and Reid as attorneys and his preliminary hearing was continued. It is charged that Molitor took two of three bundles of money, each containing \$500, from the old man's clothes. Molitor and his uncle had been spending the night together at a local hotel. Molitor is proprietor of a hotel at Calcedonia.

Brush Salesman's Brush Makes Him Double of Hughes

Main street pedestrians turned around to look Wednesday, and wondered if they'd missed something in the papers, when an elderly, dignified gentleman with neatly brushed sandy whiskers sauntered gravely down the street.

"Isn't that Charles Evans Hughes?" everybody asked everybody else. But it wasn't. It was the candidate's double, J. F. C. Hansen of Chicago, a traveling salesman.

There seems to be something peculiarly apropos about the fact that the be-whiskered duplicate of the G. O. P. representative sells brushes.

LOWDEN AND DUNNE ASSURED OF LEAD IN SUCKER STATE

CHICAGO, Sept. 15.—With only 314 down-state precincts missing from Wednesday's primaries, indications Friday were that Former Congressman Frank O. Lowden, republican, for governor, will have a plurality of 107,000 over Morton D. Hull, his nearest opponent. The vote gave Lowden 206,884, Smith 72,524, and Hull 108,758.

With 844 precincts missing, Governor Dunne, democrat, for governor, received 129,624 votes, a plurality of about 70,000 votes over William Brinton, Roger Sullivan entry. Travnor's vote was 18,759.

Latest returns indicate Medill McCormick is an easy winner for the republican nomination for congressman-at-large. Former Senator William E. Mason is still leading over B. M. Chipperfield and is believed a winner, though Chipperfield continues to cut down Mason's Cook county plurality with a heavy poll down state.

Mann Wins

James R. Mann, republican leader in the house, won renomination for congressman over Rev. M. P. Boynton, 14,806 to 3,480.

FLOWER SHOW IS GORGEOUS ARRAY OF RARE BLOSSOMS

One-hundred and seventy-five bouquets of La Crosse grown garden flowers—probably the most profuse showing of their variety ever made in La Crosse—were on display in the east room, on the second floor of the public library on Friday afternoon in the annual children's flower show of the Twentieth Century club.

Prizes are being offered by the club women to children in each school for the best bouquets of zinnias and nasturtiums. A special prize is being offered for the best bouquet from a single school. The flowers were grown from seeds furnished by the government through Congressman John J. Esch.

Mrs. George Bradish and Park Superintendent J. H. Forrer are judging the bouquets.

The zinnias and nasturtiums are of a particularly fine variety. Mixed bouquets shown by children of both public and parochial schools contained some of the daintiest blossoms of the year and showed much artistic talent in their arrangement.

PHILIPP WINS BY MORE THAN BOTH OF HIS OPPONENTS

MADISON, Wis., Sept. 15.—Complete official returns from 70 counties, and complete but unofficial returns from Milwaukee give Governor Emanuel L. Philipp 83,667 votes in the primary. William H. Hutton, his nearest opponent, received 47,115 votes and former Governor Francis E. McGovern, who ran third, received 35,786. Don C. Hall, the actor candidate, received 5,140 votes.

Senator La Follette received 99,655 votes and carried 61 counties. Malcolm G. Jeffris, the defeated candidate, received 66,204 votes and defeated the senior senator in ten counties.

Governor Philipp's vote of 83,667 is 766 more than the combined vote given Senator Hutton and Mr. McGovern which was 82,901. Governor Philipp carried 59 counties out of 71. In 27 counties he received a majority of the votes cast for governor on the republican ticket. The governor carried every county except Adams, Clark, Dane, Green, Jackson, Marquette, Pierce, Shawano, Trempealeau, Waupaca, Waushara and Winnebago. These counties were carried by Senator Hutton, one of the surprises of the primary being that Mr. McGovern did not run first in a single county. The governor ran second in 11 of the Hutton counties and third in but one county in the state, Pierce.

Mr. McGovern defeated Senator Hutton in 25 counties as follows: Ashland, Bayfield, Brown, Dodge, Door, Douglas, Dunn, Eau Claire, Florence, Forest, Grant, Iron, Kenosha, Kewaunee, Lincoln, Manitowish, Marinette, Milwaukee, Oconto, Oshkosh, Price, St. Croix, Sawyer, Taylor and Polk. Senator Hutton carried 46 counties over Mr. McGovern. Senator Hutton had a majority of all votes cast for governor in Dane, Jackson and in his home county, Waupaca, where he received a splendid endorsement. Governor Philipp's best run was made in his home county, Milwaukee, where he received 18,894 votes as compared with 9,559 cast for all of his opponents. This is considered remarkable in view of the fact that Milwaukee is also Mr. McGovern's home county.

For lieutenant governor, Edward F. Dithmar carried 50 counties out of 71. For secretary of state, Merlin Hull carried 38 out of 71 counties. For state treasurer, Henry Johnson carried 49 counties. For Attorney general, Walter C. Owen carried 66 counties.

permitted to assume charge. Candidates for the team are steadily coming into Madison this week and by Friday a squad of forty men is expected to greet Captain Meyers.

It is rumored that former coach William Juneau, who has given up active work temporarily, will be on hand for the first few weeks of the season to assist Dr. Withington.

Other old time Wisconsin stars are expected to assist the new mentor at different times during the season.

Prospects for a winning eleven are none too good at this stage of the season. Much of the material is untired and must be worked over carefully before a combination can be found which will stand the conference gaff.

There is a noticeable dearth of experienced linemen and unless a strong front wall can be erected the Badgers are certain to have a poor year.

Taylor, Eber Simpson, Ray Edler, and Berg are expected to form a strong backfield. They will have a lot of opposition from Kreuz, Vaughn, Wahl, and McCrory.

SPORT DOPE

Eppa Rixey shares with Alexander the credit due to giving the Phils air-tight pitching. The tall Virginia twirler is having the banner season of his career.

Stock is the leading hitter, Parkert the leading run-getter and Whitte the leading base-stealer performing with the Quakers.

Grover Alexander has fractured the National league's shutout record by pitching 14 shutout games this season. The old mark was 13, held by Christy Mathewson.

The Phils have seldom failed to have one or more celebrated players on their roster. Many old stars past-timed with the team, among them the late Ed Delehanty, who as a slugger was second to none, and Billy Hamilton, the greatest base-runner the National league ever owned.

The average age of the Quaker players is 26 years. "Gavy" Cravath, who confesses to 34 years, is the oldest member of the Moran regulars, and the youngest is Milton Stock, aged 23.

BAR CHARGES MISCONDUCT

ST. PAUL, Minn., Sept. 15.—About 25 charges of misconduct were filed in the state supreme court Thursday by the Clay County Bar association, against Francis E. Cary, Minneapolis attorney. Cary was admitted to the bar two weeks ago. He formerly lived at Brainerd. Charges included those that he was once convicted of grand larceny, that he was associated with the defunct Osseo State bank, that he was guilty of misconduct when connected with the Red River Potato Growers' association, and that his general character "is such that he should not be permitted to practice law."

SPEED AND ZEST ON DIVING WORK OF HIGH SQUAD

Football enthusiasts, who have followed the work of the football team of the La Crosse high school in the past few years, are commenting on the line of work being given the men by coaches Bell and Shaefer.

A great deal of attention is being paid to make this team an exceptionally fast one. Every night the men line up and number off in threes and fours. Then at the drop of the ball one of the squads starts up the field. As the men run only about twenty yards it is the start that is emphasized. The first two men in each heat are picked and the winners run a heat to pick the faster.

At the start of the season a large number of the candidates evidence shyness in diving after a fumble. To get rid of this Coach Shaefer is giving the "diving exercises."

A line is drawn across the field and the men divided into squads of three. One at a time the squads rush forward and when they reach the line they dive into the air lighting on their stomachs. The men also form pyramids over which the others dive. At the conclusion of these "diving exercises" everybody wrestles his partner.

SOX WITHIN HALF GAME OF LEAD BY BEATING SENATORS

Chicagoans Win Their Game While Detroit and Boston Both Drop Contests

CHICAGO, Sept. 15.—Chicago gained a game on the two leaders in the American league race on Thursday by defeating Washington, 7 to 5, while Detroit and Boston lost their games. The Sox are now half a game from the lead.

Jackson's timely single in the sixth inning which sent two runners across the plate, coupled with Foster's wild throw of Weaver's single when the bases were filled gave the White Sox the game.

The feature of the game was a double play in the Washington sixth. Jamieson, who batted for Gallia, had walked, and stole second base. Leonard then popped out. Foster hit a hard grounder to Weaver, who threw to E. Collins to catch Jamieson, who was caught off second.

CHENEY WINS OWN GAME WITH DOUBLE IN NINTH INNING

Dodgers Retain Lead in National While the Phillies and Boston Are Beaten

BROOKLYN, N. Y., Sept. 15.—Larry Cheney, Brooklyn pitcher, won his own game on Thursday from Pittsburgh, when he doubled in the ninth with two out, scoring Olson with the run that beat the Pirates, 3 to 2.

Grimes, a recruit from Birmingham of the Southern association held the Superbas to three hits in the first five innings, but was reached for three singles and a triple in the sixth, which gave Brooklyn two runs. The Pirates tied the score in the seventh on a single and a double and a triple.

Mowrey was safe in the ninth when W. Johnston muffed H. Wagner's throw. He was forced by Olson, who took second on Miller's out. Then came Cheney's drive, that sent home the winning run. Wheat got two hits, making his twenty-seventh straight game without missing one or more hits.

Score: R H E Pittsburgh . . . 000000200—2 5 1 Brooklyn . . . 000002001—3 10 0 Batteries: Grimes and W. Wagner; Cheney and Miller.

Cubs, 2; Braves, 0. BOSTON, Sept. 15.—Chicago shut out the Braves Thursday, 2 to 0, the game going ten innings. With the bases filled in the tenth on a single and two passes, Wortman singled, scoring the winning runs. Catcher Archer of the Cubs, had a finger split with a foul tip in the fifth inning and probably will be out of the game for several days.

Score: R H E Chicago . . . 000000000—2 8 1 Boston . . . 000000000—0 8 0 Batteries: Perry, Archer and Wilson; Ragon and Gowdf.

Giants, 3; Reds, 1. NEW YORK, Sept. 15.—New York won another game here on Thursday, defeating Cincinnati 3 to 1, for its ninth straight victory.

Score: R H E Cincinnati . . . 000000010—1 7 2 New York . . . 10010010x—3 8 0 Batteries: Moseley and Huhn; Tesreau and McCarthy.

Cardinals, 5; Phils, 3. PHILADELPHIA, Sept. 15.—With the bases full and two out in the fifth, Beschper put the ball over the right field fence for a home run, winning the game for St. Louis, 5 to 3. That hit settled Mayer and Bender finished the game for the Phils. Watson was strong in the pinches.

St. Louis . . . 100040000—5 11 4 Philadelphia . . . 01100000—3 10 1 Batteries: Watson and Gonzales; Mayer, Bender and Killifer.

WATCHING THE SCOREBOARD

Thursday's Hero Larry Cheney, With two out and a man on second in the ninth inning of the game between the Dodgers and Pirates, Cheney walked up and smashed the ball into left field, scoring the winning run for his own game.

Young Jay Gould was Thursday's winning pitcher in the Athletics' daily game.

Urban Shocker of the Yanks foiled the Tigers in their plan to take the lead in the American league.

Cobb went hitless, while Speaker connected for a lone single out of four time up.

The aged and venerable Eddie Plank took a fall out of the Red Sox, so there was no gaining by the leaders.

The Braves made a valiant fight but took a beating in the eleventh when the Cubs scored two runs on Wortman's single.

The Giants refused to have any respect for Christy Mathewson and hung up their ninth straight victory at the expense of their former star.

KONEY'S TEAM AFFORDS FAN WORLD SPECTACLE OF INSURMOUNTABLE GRIT

NEW YORK, Sept. 15.—Battling to a finish each day with two infielders recognized as the country's best, out of the game, through injuries and with a pitching staff shot to pieces, the Boston Braves are supplying the National league and the fans of the nation with a spectacle perhaps never equaled.

George Stallings' ball players, who on sheer nerve fought their way from last place to first in the memorial campaign of 1914, and who then won a world's series in four straight games from the Athletics, never have been liked. Their methods are too rough. They fight with a courage that is unshakable and their enemies on the baseball field can be counted by the dozens.

But just the same this baseball club must be credited with making the game fight over seen in the National league. Gameness is a virtue which every baseball player and manager must admire and the Braves are getting their share of admiration from the rest of the field.

SPRINGFIELD GETS THE DAIRY SHOW

By Frederic J. Haskin
WASHINGTON, D. C., Sept. 15.—The dairy experts of the United States department of agriculture here are getting all ready to betake themselves and their exhibits to the great National Dairy Show which is to be held in Springfield this year.

No, not Springfield, Illinois, nor Springfield, Ohio, nor yet Springfield, Missouri. All good towns, and centrally located. But the National Dairy Show, one of the biggest and most important fairs that is held in the United States, is going way up into the corner of the map and take place at Springfield, Massachusetts.

The way this came about is an interesting incident in the great American sport of capturing conventions, together with the prestige, dollars and fun that accompany them. Throughout its existence of about a dozen years, the big dairy show has always been held in Chicago. Last year the epidemic of foot-and-mouth disease prevented it, and endangered the lives of a lot of valuable cattle. The dairymen decided to have it somewhere else this year.

That left a wide-open chance for any city with enterprise. St. Louis and Kansas City not unnaturally thought they were the only competitors worth mentioning. Both were large, rich and centrally located. They piled before the dairymen amazing amounts of money and pledges of still more. They casually mentioned their fine hotels and ideal locations.

Then the committee-men from Springfield stepped forward. They could not outbid the big western cities, but they had one powerful argument: New England needed that show more than any other section of the country. After making it perfectly clear which one of the several Springfielders they presented, the committee-men explained that agriculture in New England was under a fairly and much needed revival, and that this revival required the dairy show as a stimulus. New England is only producing about per cent of what she eats, although perfectly capable of producing one hundred per cent. The result of her dependence upon shipment is that it costs a working man thirty per cent more to live in New England than in the west or south. Now New England is the factory of America; and that factory requires the support of a farming industry that can feed it at a reasonable cost. Generous crops in New England mean cheaper manufactured goods for the rest of the country.

Thus argued the New Englanders, and the dairymen were convinced. St. Louis and Kansas City wanted the dairy show, but Springfield needed it for a specific purpose; so Springfield got it. The dairy show will bring to New England specimens of the finest blooded stock in the world, both horse and cattle; it will bring exhibits of all the latest machinery and appliances for dairying and farming; it will bring experts from all over the states and the federal government to preach the methods of scientific dairying and stock raising. It will stimulate competition throughout New England. The value of such a show to a section which is working to build up its agricultural industries can scarcely be over-estimated.

The preparations that are going forward in Springfield indicate that the dairy show is going to meet with a record welcome. They know how to hold fairs in New England. That section is the cradle of the country fair in America. The three-county fair at Northampton, for example, is ninety-eight years old and reported as still growing.

try fair were evolved and perfected. So that New England has spent over a century learning how to hold fairs, and the people are accustomed to attending them. Springfield is well qualified to handle the biggest fair in the country.

The dairying business is among the largest industries in the United States, and also one of the most responsible. Milk is one of the surest carriers of disease in the world, and also an indispensable item of human foods. So that in a very real sense the dairymen have the lives of all of us in their hands. For the most part they are working with conscientious and scientific thoroughness to meet their ever growing problem, and the government is helping them. The dairying division of the Bureau of Animal Industry is one of the most extensive laboratories in Washington, occupying several floors of the new Agricultural building. Here you will find whole rooms devoted to such subjects as the bacteriology of soft cheese and the chemistry of butter-milk.

The National Dairy Show is a sort of clearing house of ideas in this great industry. Improvements in the breeds of cattle, the management of dairies, and in the scientific appliances of the business are here gathered and placed on exhibition. The government has been given \$15,000 by congress to spend at the show this year. It will spend a large part of that amount in setting up model dairy barns, silos and other buildings and appliances. It will also maintain a "demonstration herd." This will consist of a dozen cows of all sorts and breeds. The product of each of them will be carefully weighed and tested each day, so that the records will show not only the amount of milk each cow gives, but its content in cream and butter. This demonstration is intended to convince the dairymen that he must keep such a record if he wants to know what his cows are really worth to him, and which ones to keep and which to sell.

MILLION MARK IS PASSED IN STOCKS U. P. IS LEADER

Sales for First Hour Are 350,000; Steel Is Quoted at Record Price of 107

WHEAT IN ANOTHER DROP September Down One Cent; December 5-8; Reports of Frost Send Corn Down

New York Stocks

NEW YORK, Sept. 15.—Union Pacific sold at 144 1/4, a new high record in a continuation of the bull market on the Stock exchange Friday. Buying during the first hour gave promise of another million share day, as sales were approximately 350,000. New York Central followed Union Pacific's lead advancing to 106 3/4, a gain of nearly a point and other rails were strong. General Motors sold from 74 to 74 1/4, down 2 1/4 from the record set Thursday.

Profit-taking and bear tips spread through the market caused some irregularity in the late forenoon. Stories of "killings" made during the recent rise brought the public into the market on the buying side again. Steel was again quoted at its record price of 107 and Union Pacific pushed its morning record higher, selling at 144 1/4. Driggs Seabury advanced to par, a gain of eight points.

Heavy buying, apparently for control, shot Railway Steel Springs to a record price at 55 1/4, a raise of nearly five points. Industrial Alcohol moved up 1/4 to 132 1/4. Sales for the morning were 637,000 shares. U. S. Steel opened at 106 3/4; Crucible, 94 1/4; Marine preferred, 123; Anaconda, 90, and Reading, 113 1/4. Motors showed some recessions, Studebaker leading with a loss of two points.

The million share mark was passed shortly after two o'clock, at which hour prices were steady and slightly under the best of the day. Driggs sold at 109 1/4, up 17 1/4. Union Pacific advanced to 145 in late trading and Driggs Seabury sold at 111 1/4, up nearly 20 points, on reports of huge war order profits. The general market was irregular at the close.

The day's sales were 1,297,000 shares. United States Steel closed at 106 3/4, Union Pacific at 146 1/4 and Reading at 113.

Chicago Grain Review

CHICAGO, Sept. 15.—Heavy selling on the bulk was responsible for a drop in wheat prices Friday. Early gains were made on light offerings and the discrediting of reports that Argentine wheat had been offered at American seaports at lower prices.

September was down 1c below a high opening at \$1.48 1/4; December down 1/2 c at \$1.48 1/4, and May was unchanged at \$1.49 1/4.

Continued reports of frost in the corn belt, sent corn prices down. Sept. down 1/2 c at 85 1/2 c; December down 1/4 c at 72c, and May down 1/4 c at 74 1/4 c.

Oats averaged higher on first trades but declined later on the weakness in other grains. September was down 1/4 c at 44 1/4 c; December down 1/4 c at 47 1/4 c, and May unchanged at 50 1/4 c.

Provisions were slow and lower despite a strong hog market.

The sunflower is cultivated in Russia for oil, fodder and potash.

SPARTANS MARRY;
HARRY SMITH WEDS
MINNESOTA GIRL

Becomes Husband of Nellie Dalenberg at Kasson; Albert Bergman Weds Miss Elsie Lange

SPARTA, Wis.—(Special.)—Mrs. H. H. Smith has received a telegram announcing the marriage of her son Harry to Miss Nellie Dalenberg, at the bride's home at Kasson, Minn. The wedding took place September 12.

Albert Bergman, Jr., an employee in the Wells-Fargo Express office, and Miss Elsie Lange were united in marriage Monday evening, September 11, at the parsonage of St. John's Lutheran church, the ceremony being performed by Rev. H. W. Schmeling. Ernest Sickert and Miss Emma Birkholz attended the couple.

The bride and groom departed on a wedding trip to Milwaukee and other points in the eastern part of the state after which they will take up their residence in Sparta.

Farmers to Speak
Fifty farmers have been chosen by Governor Philipp to speak for Wisconsin at the eleventh annual meeting of the International Farm congress to be held at El Paso, Texas, October 17 to 26. J. W. Leverich of Sparta is among those receiving appointments.

Country Club
The formal opening of the Country club house last Thursday was a very successful affair, so much so that another program has been arranged for Friday, the 15th. There will be mixed foursomes in the afternoon for those who play golf and auction bridge for the ladies of the club who do not care for the outdoor game. All members are expected to bring well filled baskets for a picnic supper.

Friday has been set aside as ladies' day at the club and a committee will be appointed each week to provide a program for the day. Mrs. L. W. Persons and Miss Belle Moffett have charge of the entertainment this week.

BE PRETTY! TURN
GRAY HAIR DARK

Try Grandmother's old Favorite Recipe of Sage Tea and Sulphur

Almost everyone knows that Sage Tea and Sulphur, properly compounded, brings back the natural color and lustre to the hair when faded, streaked or gray. Years ago the only way to get this mixture was to make it at home, which is messy and troublesome. Nowadays, by asking at any drug store for "Wyeth's Sage and Sulphur Compound," you will get a large bottle of this famous old recipe, improved by the addition of other ingredients, for about 50 cents.

Don't stay gray! Try it! No one can possibly tell that you darkened your hair, as it does it so naturally and evenly. You dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time, by morning the gray hair disappears, and after another application or two, your hair becomes beautifully dark, glossy and attractive.

Wyeth's Sage and Sulphur Compound is a delightful toilet requisite for those who desire dark hair and a youthful appearance. It is not intended for the cure, mitigation or prevention of disease.

Indoor Life Makes Fat

TRY OIL OF KOREAN TO KEEP WEIGHT DOWN, OR TO REDUCE SUPERFLUOUS FAT.
People who are confined within doors and who are deprived of fresh invigorating air and exercise must take precaution to guard against overweight, as fat acquired by indoor life is unhealthy and a danger to the vital organs of the body. Lack of exercise in the fresh air is said to weaken the oxygen carrying power of the blood, so that it is unable to produce strong muscles and vitality and the formation of unsightly and unhealthy fat is the result.

If you are 15 or 20 pounds above normal weight you are daily drawing on your reserve strength and are constantly lowering your vitality by carrying the excess burden. Any persons who are satisfied in their own minds that they are too stout are advised to go to City Book and Drug Store, 500 Main street, or Columbia Pharmacy, 123 South Fourth street, and get a box of oil of korean capsules, and take one after each meal and one just before retiring at night.

Even a few days treatment has been reported to show a noticeable reduction in weight, improved digestion and a return of the old energy; footsteps become lighter and the skin less flabby in appearance as superfluous fat disappears.
